REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The best prior art of record is an Internet web site, www.golfagent.com, retrieved from the Internet Archive Wayback machine (hereinafter referred to as GolfAgent). GolfAgent discloses a method comprising the steps of, with a hub server, receiving a request for a web page from a golfer computer via a communications network, wherein the communication network is the Internet, wherein the request designates a specific geographic region, wherein the request includes a date on which the golfer desires to play but does not require the golfer to specify the golfer's desired time of play in order to generate a list of available tee times, the golfer located remotely from the hub server; in response to the request, generating a single web page listing multiple tee times available at a single golf course for reservation by golfers, wherein if the request designates a specific geographic region, the single web page is generated to list available tee times for one golf course in the specific geographic region, the multiple tee times indicated as available for the one golf course for a date being a subset of all of the tee times at the golf course for the date; transmitting the single web page to the golfer computer via the communication network, receiving specific tee times posted by a plurality of golf course user's computers via the communications network, the golf course users' computers located remotely from the hub server and the golfer computer, storing the available tee times in a database, and in response to the request, retrieving the available tee times from the database for use in generating the single web page, receiving a reservation for a selected golf

course and tee time from the user computer via a communication network; storing the reservation in the database, and transmitting the reservation to the computer of the selected golf course via the communication network, wherein the listing of the multiple available tee times are next-day tee times for respective golf courses.

As per independent claim 61, the best prior art of record does not disclose or fairly suggest, in response to the request, generating a single web page listing multiple tee times available *at a plurality of golf courses* for reservation by golfers, the multiple tee time indicated as available for each golf course for a date being a subset of all of the tee times at the golf course for the date. GolfAgent discloses, in response to the request, generating a single web page listing multiple tee times available at only one golf course for reservation by golfers, the multiple tee times indicated as available for the one golf course for a date being a subset of all of the tee times at the golf course for the date. None of the prior art remedy the deficiency found in the GolfAgent reference.

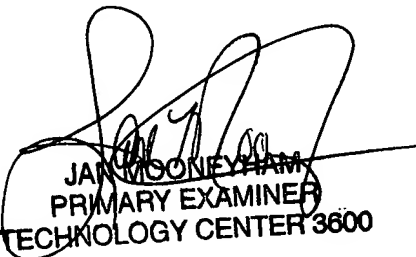

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
